FoodChain
Testing

Since 1996, FoodChain ID Testing has performed DNA-based testing for the food industry. Our methods are recognized worldwide for their rigor, reliability, and consistently accurate results.

Testing services include:

- Animal and plant speciation for authenticity programs
- CMS
- Genotyping
- GMO
- Gluten
- Halal
- Microbiology (including veterinary diseases)
- Mycotoxins
- Organic verification
- Pesticide residues

FoodChain
Certification
INSPECTION & CERTIFICATION

FoodChain ID Certification is a global leader in third-party certification. Since 1999, we have certified food operations against GFSI-recognized certification programs and are known for ensuring that certification decisions are upheld with the highest degree of objectivity and technical competency.

Certification services include:

- BRC, FSSC 22000, GlobalG.A.P., and SQF (GFSI-recognized)
- HACCP
- Costco Audits
- FoodChain ID Gluten-Free
- FoodChain ID Non-GMO
- Bonsucro, Europe Soya, ISCC, ProFarm, ProTerra, and RTRS
- USDA Organic, VLOG, EU Regulatory Compliance

FoodChain
